PERSONAL SUMMARY

- With almost 20 year of freelance web design experience, I love to use my skills and knowledge to help challenge others to build and create meaningful and eye-catching websites without WYSWYG software.
- I have almost 5 years experience by teaching within the online Higher Education environment by creating and developing web design topic courses with various LMS.
- I also have experience in mentoring new instructors on the path to be successful by teaching within an E-Learning environment.

WORK EXPERIENCE

Online Adjunct Lecturer, Course Developer and Facilitator

// January 2014 - Present

University of Florida: College of Journalism's Web Design and Online Communication program / Professional Development department

- Develop, initiate, moderate, instruct, and assess course materials such as syllabi, course calendars, assignments, projects, quizzes, discussion postings, and group activities.
- Instruct live lectures via webcam twice a week per 16 week semesters for a diverse population of traditional students and working adults containing a wide variety of educational backgrounds and experience.
- **Currently Instructing:** Web Design Principles (History of the Internet/Web Design, HTML/CSS, Design stages: Sketching, Wireframes, Mockups, etc.)
- **Other responsibilities:** Curator of Program's Student Showcase website
- **Previous Instructing Responsibility:** Advanced Web Topics 1 (HTML/CSS/JavaScript Intro.)
- **Other Opportunities:** Instructor Mentor
